

Hungkuang University and The Sustainable Development Goals

SDGs 12. Responsible Consumption and Production

[12.2] Operational measures

[12.2.7] Disposable policy: extensions to services

The propaganda of resource recycle

Disposable utensils banned in school's restaurant

Description:

Beginning in July 2006, Environmental Protection Agency in Taiwan prohibited the use of plastic bags and disposable tableware (including chopsticks, spoons, bowls and plates) in government agency and schools. Since then, at HKU we no longer offer disposable tableware and single-use straws. We also gifts a set of reusable cutleries to freshmen students, encouraging them to protect the environment.
