

Hungkuang University and The Sustainable Development Goals

SDGs 12. Responsible Consumption and Production

[12.2] Operational measures

[12.2.8] Minimisation policies extended to suppliers

awarded and commended by the Taichung City Government (Hungkuang University, Taiwan)

Description:

Green purchase

To reduce the environmental impact, the purchase of environmentally friendly and energy-saving products have been prioritized i.e. toilet paper and photocopying paper with environmentally friendly label, computer equipment with energy star and energy-saving label, water dispensers and A/Cs, urinals with water saving marks, faucets and shower heads, and A/Cs with energy efficiency class 1 and class 2 marks (see the table below). The university also signed the “Intention Letter for the Green Purchase of Private Enterprises and Groups” with Taichung City Government on January 1, 2022. Due to its outstanding implementation results, it has been awarded and commended by the Taichung City Government Environmental Protection Bureau for six consecutive years.

Projects/years	2020	2021	2022
Total green purchase (thousands NT\$)	4,244.79	8,984.06	9,230.00
