

## Hungkuang University and The Sustainable Development Goals

### SDGs 17. Partnership for the Goals

#### [17.2] Relationships to support the goals

#### [17.2.3] International collaboration data gathering for SDG

<p>Jennifer, Andrew and Anika, interns from Humber College, Toronto discussed cross-cultural communications and their experiences as an international student in Canada and Taiwan. They talk with HKU students about things to consider when you are going abroad.</p>	<p>The Canadian students planning the event are also excited to share food, games, and arts and crafts from their home country with students at Hungkuang University. “We are so excited to share Canada with all the students on campus! We invite everyone on campus to come experience a slice of Canada,” said Andrew Drager, coordinator of the Canada Day event.</p>

In order to enhance students' love of care, the school extends volunteer service activities to abroad and promotes the International Volunteer Service Team.

**Description:** HKU has established beneficial partnership with 145 universities worldwide and recruited international students and trainees with various pursuits. The international student body is currently above 700. In addition to recruiting degree-seeking students, we offer customized skill-training programs to meet different professional and industrial needs, such as nursing, hospital management, pre-school education, vocational education, and cosmetic-medicine.

While domestic students are encouraged to participate in various global mobility programs to enhance global visions and competitiveness, students from our partner universities are welcome to fulfill academic requirement and experience the local customs of Taichung at HKU through dual- degree study, exchange programs, internships, and short-term training programs.

The Office of International and Cross-Strait Affairs was originally founded in 2010 to coordinate official university business with Mainland China. In 2011, the Office merged the International Exchange and Cooperation Section separated from the Department of Research and Development. The Office aims to expedite the global and cross-straits academic exchange and two-way student outbound learning program. The University has signed up the protocol with various academic organizations in United Kingdom, America, Vietnam, Singapore, Malaysia, Indonesia, Philippines, Japan, Korea, Canada, Australia, Germany, Thailand, India and Mainland China. We hope to provide more opportunities for professors and students to research, learn, and exchange overseas. The Office also recruits International students, and offer advice to assist them studying and living in Taiwan!
