SDGs 6. Clean Water and Sanitation

[6.5] Water in the community

[6.5.5] Promoting conscious water usage

	
Waterless Urinals	Water tap
	
	toilet flush
The Use of Water Efficient Appliances(University of Hungkuang, Taiwan)	

Description:

- 1.The Use of Water Efficient Appliances (Urinals, Water tap, toilet flush, etc).
- 2.The waterless urinals use cutting edge technology that eliminates the need for flush or low flush urinals. Our touch-free system and its advanced design result in more hygienic urinals that greatly reduce odor.

Appliance	Total number water Efficient appliances	result
Water tap	1,258	The Water consumption reduction by 20,000 m ³ /year
toilet flush	150	
Waterless Urinals	36
